7. Reverse Integer

```
int reverse(int x){
    long long a=0;
    while(x!=0){
      a=a*10+(x%10);
      x=x/10;

    }
    if(a>2147483647 || a<-2147483648){
      return 0;}

    return a;
}
```
